

FutureSport — Platform MVP Roadmap

Analytical engine & tournament portal backend for youth football (PMC & NSSL)

***Mission:** Bridge youth football with elite data analytics, providing real-time match tracking, spatial shot/save mapping, player profile management, and automated sync with national tournament portals.*

Phase 1: Core Foundation & Roster Management (Completed)

Feature	Target Audience	Key Capabilities	Status
Player Registration	Coaches / Admins	Digital birth certificate & enrollment upload, jersey assignment, medical records	Completed
Performance Data Table	Coaches	Multi-metric gradebook for Goals, Assists, Tackles, Pass Accuracy, Dribbles	Completed
Goalkeeper Filtering	GK Coaches	Isolated stat view for Saves, Clean Sheets, Punches, High Claims, Goals Conceded	Completed
Age Group Partitioning	League Operators	Automated eligibility grouping across U14, U16, and U19 cohorts	Completed

Phase 2: Live Match Day & Spatial Analytics (Completed)

Feature	Description	Impact	Status
Matchday Pitch View	Tactically aligned 4-3-3 / 4-4-2 visual lineup grid with jersey numbers	Replaces paper match sheets for coaches	Completed
Live Match Controller	Real-time match clock, event timeline, substitutions, yellow/red cards	Standardizes match reporting for referees	Completed
Interactive Shot Map	Spatial (x, y) coordinate tracking for all shot attempts (Goal, Saved, Miss)	Visualizes player finishing zones & accuracy	Completed
Interactive Save Map	Spatial (x, y) coordinate tracking for goalkeeper saves & goals conceded	Provides specialized shot-stopping insights	Completed

Phase 3: Multi-Tournament Engine & Portal Sync (Active)

System Component	Integration Flow	Status
Tournament Switcher	Instant toggle between PMC and NSSL contexts across all views	Completed
Match Approval Engine	Commissioner dashboard for verifying match sheets prior to sync	Completed
PMC Sync Engine (pmcSyncEngine.js)	Pushes approved match stats, tables, and top scorers to external API	Active
Standings & Goal Difference	Automated calculation of points, goal difference, and tie-breakers	Completed

Phase 4 & 5: Future Expansion & Ecosystem Scaling

Phase 4: Scouting & AI Insights (Next Horizon)	Phase 5: Enterprise API & Pitch App
--	-------------------------------------

• Percentile Pizza Radar Charts: 80th+ percentile skill breakdown vs. league benchmarks. • AI Pattern Insights: Finishing & defensive summaries. • Scout PDF Export: Printable dossiers for recruiters. • Video Timestamping: Link shot dots to video clips.	• Public REST & GraphQL API: Developer data feeds for sports media and journalists. • Pitch-Side Mobile App: PWA for offline pitch-side match logging in low-connectivity venues.
--	---

Core Performance Indicators (KPIs)

99.5%	< 2s	100%	Offline-First
Match Sheet Accuracy	Portal Sync Latency	Spatial Indexing	Pitch-Side Fallback
